

PMO: Set up and Sustain Project Management Office

Objective:

Today, managing project is more complicated and faces challenges with constraints limiting the project success. Organizations have instituted project management to drive successful implementation of projects. Establishing an entity called Project management office (PMO) is one of the important practiced features to support project managers, coordinate, centralize organizational project management and standardize tools, templates, procedures, and methodology for consistencies and efficiency.

The course is intended for the management, PMO manager and PMO staffs who would like to manage the PMO to support business. Participants will get best practices in setting up, managing and sustaining the project management office as a center of project excellence.

Who Should Attend: People related to projects and PMO:

- Management people who manage or coordinate projects
 - Corporate Manager
 - Project Manager
- People who facilitate managing multiple projects or track project progress
 - Head of PMO
 - PMO staffs
 - Project members who support project managers in terms of project reporting, project schedule and project monitoring and control

Course Benefit:

Participants will:

- Understand the PMO characteristics, responsibilities and functions
- Learn how to implement a PMO in organizations
- Learn how to improve project management in organizations
- Learn how to support and monitor projects in order to drive more success for project delivery
