

## ***APS: Essential Attitude for Project Success***

**Objective:** The course is intended for professional project managers or individuals who would like to practice the essential skills and cultivate positive attitude for managing project. **Good attitude guides the project decisions and actions to the right direction.** It covers the 7 key skills and attitude for professional project managers such as outcome realization and measurement, sense of accountability, managing project proactively, performing corrective and preventive actions, effective communication, changing the culture in project, team motivation and team building.

To strengthen the understanding of the course, it is optional that the participants can attend Project Management Professionals 6-day course to prepare 10 knowledge areas of project management.

For participants' better understanding, the instructors provide the practical scenarios in every workshop and group discussion, together with the answer keys of each scenario according to the best practice way. Participants can develop and cultivate the skills and attitude based-on best practice knowledge to apply with their real world project in practical ways.

**Who Should Attend:** People who work in project-based or stake in projects.

- Management people who manage or coordinate projects
  - Corporate Manager
  - Project Manager
  - Project Team Leader
  - Project Coordinator
- Operation staffs or project members who direct or execute project activities

**Course Benefits:** Participants will learn how to:
